AUTHOR INDEX

Alvares, N. J.
The Effect of Smoke on the Production and Stability of High-Expansion Foam, p. 88
Chemical Constituents of Smoke and Conjecture as to their Role in Foam Destruction, p. 204

Arney, Jr., W. C.
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29
Structure-Property Relationships in Flame Retardant Systems, p. 183

Beninate, J. V.
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2

Bower, J. G.
Comparative Evaluation of Zinc Borate 2:3:3.5 with Antimony Oxide using Various Fire Testing Methods, p. 226

Burgess, Jr., P. E.
A Four-Foot Tunnel Test Apparatus for Measuring Surface Flame Spread, p. 154

Draganov, S. M.
Comparative Evaluation of Zinc Borate 2:3:3.5 with Antimony Oxide using Various Fire Testing Methods, p. 226

Drake, Jr., G. L.
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Economy, J.
Non-Flammable Phenolic Fibers, p. 114

Frechette, F. J.
Non-Flammable Phenolic Fibers, p. 114

Gaskill, J. R.
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Hendrix, J. E.
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Hilado, C. J.
A Four-Foot Tunnel Test Apparatus for Measuring Surface Flame Spread, p. 154

Kadi, W. J.
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Kuryla, W. C.
Structure-Property Relationships in Flame Retardant Systems, p. 183

Lee, B. T.
Fire-Spread Models of Upholstered Furniture, p. 164

Lipska, A. E.
The Effect of Smoke on the Production and Stability of High-Expansion Foam, p. 88
Chemical Constituents of Smoke and Conjecture as to their Role in Foam Destruction, p. 204

Nakakuki, A.
Flame Spread Rates of Solid Combustibles in Compressed and Oxygen Enriched Atmospheres, p. 146

Parker, W. J.
Flame-Spread Model for Cellulosic Materials, p. 254

Pitts, J. J.
Antimony — Halogen Synergistic Reactions in Fire Retardants, p. 51

Reeves, W. A.
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Sprague, R. W.
Comparative Evaluation of Zinc Borate 2:3:3.5 with Antimony Oxide using Various Fire Testing Methods, p. 226

Steingiser, Samuel
A Philosophy of Fire Testing, p. 238

Sumi, K.
Evaluation of the Toxicity of Combustion Products, p. 46

Taylor, R. D.
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Temin, S. C.
Flame Retardant Treatments of PBI Fabric, p. 19

Touval, I.
The Use of Stannic Oxide Hydrate as a Flame Retardant Synergist, p. 130

Tsuchiya, Y.
Evaluation of the Toxicity of Combustion Products, p. 46

Wiltshire, L. L.
Fire-Spread Models of Upholstered Furniture, p. 164

Wohrer, L. C.
Non-Flammable Phenolic Fibers, p. 114

SUBJECT INDEX

Accelerated Testing
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29

Air Permeability
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Antimony – Halogen
Antimony-Halogen Synergistic Reactions in Fire Retardants, p. 51

Antimony Oxide
The Use of Stannic Oxide Hydrate as a Flame Retardant Synergist, p. 130

Automatic Fire Extinguishment
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Blends
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Non-Flammable Phenolic Fibers, p. 114

Bromination
Flame Retardant Treatments of PBI Fabric, p. 19

Buoyancy
Flame Spread Rates of Solid Combustibles in Compressed and Oxygen Enriched Atmospheres, p. 146

Cellulose
Structure-Property Relationships in Flame Retardants, p. 183
Flame-Spread Model for Cellulosic Materials, p. 254

Chemistry, Flame Retardants
Structure-Property Relationships in Flame Retardant Systems, p. 183

Chlorinated Hydrocarbons
The Use of Stannic Oxide Hydrate as a Flame Retardant Synergist, p. 130

Combustion Products
Evaluation of the Toxicity of Combustion Products, p. 46

Compressed Atmospheres
Flame Spread Rates of Solid Combustibles in Compressed and Oxygen Enriched Atmospheres, p. 146

Correlation Coefficient
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Cotton
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Cover Factor
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Fabric Construction
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Fabric Weight
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Fire Endurance Tests
A Philosophy of Fire Testing, p. 238

Fire Extinguishment
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Fire Gases Tests
A Philosophy of Fire Testing, p. 238

Fire Standards
A Philosophy of Fire Testing, p. 238

Fire Testing
A Philosophy of Fire Testing, p. 238

Flame Retardant Fabric
Flame Retardant Treatments of PBI Fabric, p. 19
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29

Flammability
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Flame Retardant Treatments of PBI Fabric, p. 19
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38
Fire-Spread Models of Upholstered Furniture, p. 164

Flammability in Oxygen
Flame Retardant Treatments of PBI Fabric, p. 19

Foam, Fire Extinguishing
The Effect of Smoke on the Production and Stability of High-Expansion Foam, p. 88
Chemical Constituents of Smoke and Conjecture as to their Role in Foam Destruction, p. 204

Gas Burner
Flame-Spread Model for Cellulosic Materials, p. 254

Halon Fire Extinguishment System
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Heat Contribution Tests
A Philosophy of Fire Testing, p. 238

Heat Transfer
Flame-Spread Model for Cellulosic Materials, p. 254

Hydrated Stannic Oxide
The Use of Stannic Oxide Hydrate as a Flame Retardant Synergist, p. 130

Ignition Tests
A Philosophy of Fire Testing, p. 238

Laundry Durability
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29

Mechanism Flame Retardants
Structure-Property Relationships in Flame Retardant Systems, p. 183

Multiple Washings
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29

Nylon
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2

Oxygen
Flame Spread Rates of Solid Combustibles in Compressed and Oxygen Enriched Atmospheres, p. 146

Oxygen Index
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Phenolic Fibers
Non-Flammable Phenolic Fibers, p. 114

Phosphorus Flame Retardants
Structure-Property Relationships in Flame Retardant Systems, p. 183

Phosphorylation
Flame Retardant Treatments of PBI Fabric, p. 19

Polybenzimidazole
Flame Retardant Treatments of PBI Fabric, p. 19

Polyester
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2

Polyolefins
The Use of Stannic Oxide Hydrate as a Flame Retardant Synergist, p. 130

Portable Fire Extinguishment System
A Portable Halon Fire Extinguishing System for Trailers, p. 192

Pyrolysis
Flame-Spread Model for Cellulosic Materials, p. 254

Radiant Panel Test
Comparative Evaluation of Zinc Borate 2:3:3.5 with Antimony Oxide using Various Fire Testing Methods, p. 226

Reduced-Scale Modeling
Fire-Spread Models of Upholstered Furniture, p. 164

Rigid Foam
A Four-Foot Tunnel Test Apparatus for Measuring Surface Flame Spread, p. 154

Smoke, Chemical Constituents
Chemical Constituents of Smoke and Conjecture as to their Role in Foam Destruction, p. 204

Smoke Production Tests
The Effect of Smoke on the Production and Stability of High-Expansion Foam, p. 88
Chemical Constituents of Smoke and Conjecture on Role in Foam Destruction, p. 204
A Philosophy of Fire Testing, p. 238

Solid Combustibles
Flame Spread Rates of Solid Combustibles in Compressed and Oxygen Enriched Atmospheres, p. 146

Surface Flammability Tests
A Four-Foot Tunnel Test Apparatus for Measuring Surface Flame Spread, p. 154
A Philosophy of Fire Testing p. 238

Test Method
A Four-Foot Tunnel Test Apparatus for Measuring Surface Flame Spread, p. 154

Textile Flammability
Accelerated Wash Durability Evaluations of Textile Flame Retardant Finishes, p. 29

Thermal Analysis
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2
The Use of Stannic Oxide Hydrate as a Flame Retardant Synergist, p. 130

Toxicity
Evaluation of the Toxicity of Combustion Products, p. 46

Tunnel Test
A Four-Foot Tunnel Test Apparatus for Measuring Surface Flame Spread, p. 154

Upholstered Furniture
Fire-Spread Models of Upholstered Furniture, p. 164

Variance
Effects of Fabric Weight and Construction on Oxygen Index Values for Cotton Cellulose, p. 38

Wool
Environmental Temperatures and Oxygen Index Values for Textile Fabrics, p. 2

Zinc Borate
Comparative Evaluation of Zinc Borate 2:3:3.5 with Antimony Oxide using Various Fire Testing Methods, p. 226
